

Fort Drum Tagged Deer 2017 Harvest Guidelines

All Collared and Tagged Deer are **SAFE TO SHOOT** in 2017

*We will not be doing any darting in fall 2017 so all collared and all tagged deer will be safe to shoot.

*Report any harvested tagged or collared deer ASAP via phone/text to 414-315-2588 or email at mjf322@cornell.edu

Report All Tagged/Collared Deer on Trail Camera Photos

- It's **essential** as we finish this project that an accurate record of tagged deer sightings is kept.
- Contact Martin at 414-315-2588 or mjf322@cornell.edu if you have any photos of tagged or collared deer.
- We will set up a private drive for upload or other modes of deposit on a case by case basis.
