

Fort Drum Tagged Deer 2018 Harvest Guideline

DO NOT SHOOT

Any Deer with Blue Ear Tags & a Yellow Collar

SAFE TO SHOOT

All other ear tag and radio collar colored deer are available for shooting in 2018

FAQs & Info

- Tagged and collared deer are part of a 4 year deer population study.
- Blue ear tagged & yellow collared deer are part of a long term movement study.
- There are only 5 bucks and 14 does that are off limits.
- If accidentally shot, please call 414-315-2588 immediately.
- The collars have sensors that will notify us of the mortality.
- If you have any questions or concerns or to report a tagged or collared deer harvest please contact Martin Feehan at 414-315-2588.

Please submit all photos of tagged or collared deer.

It is essential for the success of our deer study that we gain as much movement data on our tagged and collared deer.

- Submissions will be used as part of our spatial database for our tagged deer.
- Photos and locations **will not** be shared with the public without explicit permission from the person submitting them.
